Lausanne, 13 October 2020

Dear Souad,

As decided at the European Athletics Executive Board meeting on 12 October, your Federation has been granted the organisation of the

**European 10,000m Cup 2022, 2023 and 2024
in Pacé (FRA)**

European Athletics would like to congratulate and wish your Federation, the League and the Club a successful preparation of this event.

We would like you though to note that, even if the event is in principle allocated for the three consecutive editions, European Athletics will review together with the LOC the 2022 edition to reconfirm the allocation for 2023 and 2024.

The European Athletics event management team is responsible for the overall coordination of European Athletics events and liaison with the Local Organising Committee. The project leader, who has been appointed for this event is:

Quentin Pirlet

Tel: +41 21 313 43 52

E-mail: quentin.pirlet@european-athletics.org

Quentin will be your main point of contact at European Athletics and his task will be to provide you with help and advice in the organisation of the event. Of course, the entire European Athletics staff will support the event in their relevant area of expertise.

We will send you separately the Organiser Agreement to be signed by your Federation and the relevant parties. In addition to the agreement there are several documents, guidelines and templates that will assist you in the preparation and organisation of your event, which will be made available to you through a document management system. We will provide you with the respective accesses and instructions.

Information will also follow on the nominations of the European Athletics' officiating persons for this event, as per the European Athletics Executive Board decision and in due time a site visit will be organised to establish a close cooperation in your future preparation work.

Should you need any further information, please do not hesitate to contact us at your own convenience.

Looking forward to our cooperation and a successful event.

Kind regards,

Christian Milz
CEO
